

Nolan Heuchert, CAIB, CRM

*Director
Wylie-Crump Limited*

Nolan is a Director of Wylie-Crump Limited, and has been focused on servicing the insurance and risk advisory needs of the construction and design industry sector since 1994.

As a former senior officer and construction practice leader for a large international insurance brokerage firm, Nolan has been engaged in a wide spectrum of complex domestic and international insurance programs as well as several Public Private Partnership (P3) projects in British Columbia, Alberta and Ontario. Nolan's insurance knowledge and understanding of the construction industry is a highly valued client resource which is respected by owners, designers and contractors alike.

Nolan is involved and participates in a number of local and national construction / design industry associations. He is currently the chair of the Risk Management Committee for the Canadian Design Build Institute (CDBI), a chapter of the Canadian Construction Association.

Nolan's educational background includes a university degree in the discipline of economics and public administration from the University of Saskatchewan. In addition, Nolan continues his professional education within the insurance industry and has achieved his Canadian Accredited Insurance Broker (CAIB) designation and his Canadian Risk Management (CRM) designation through Simon Fraser University.

Wylie-Crump Limited (est. 1972) is an independent commercial lines insurance brokerage based in Vancouver BC. Wylie-Crump provides innovative custom crafted risk solutions and products to a number of clients with intricate and unusual insurance and guarantee needs. Wylie-Crump strives to offer solutions to meet these special needs with an over arching perspective to improve profitability by reducing your cost of risk while protecting your business assets and future revenues.
